Priority Points System and Promotional Opportunities

Since 1996, the ESCRS has been allocating exhibition space based on a Priority Points System. Not only is this system the fairest method of allocating space, it also offers a variety of avenues to promote individual companies. All exhibiting companies will be scored according to points earned. Because corner booths and booths located close to entrances and catering areas are frequently requested by companies, these spaces will be assigned according to priority points, booth size requested and height restrictions.

You can earn priority points by:

- Exhibiting at ESCRS congresses
- Advertising in Congress Programmes & ET Today
- Advertising in the Journal of Cataract & Refractive Surgery
- Advertising in EuroTimes
- Supporting Congress Sponsorship Activities
- Hosting a EuroTimes Satellite Meeting at ESCRS
- Booking a listing on the ESCRS Online Virtual Exhibition
- Sponsoring equipment for Surgical Skills Training Courses

All priority points are accrued throughout the calendar year January - December.

For example all priority points earned Jan - Dec 2007 will be used to determine a company’s booth locations for ESCRS 2008.

If you would like to find out more details on Priority Points or would like to know the number of points accrued by your company, please contact:
